Break Through Austrian Line

ALLIES DRIVE GREAT WEDGE ON WIDE FRONT IN PIAVE REGION

Eleven Villages, Including Important Albanian Town, and Approximately 16,000 Prisoners, Are Captured in Italian Offensive. Advance More Than 5 Miles East of Piave on 15 Mile Front.

6 AUSTRIAN DIVISIONS LOSE HEAVILY

(By United Press)

London, Oct. 29.—Six Austrian divisions have lost more than fifteen per cent of their effective troops so far, in the Anglo-Italian offensive, according to a Rome dispatch today.

Rome, Oct. 29.—Italian and British troops, continuing their offensive in the Piave region, have broken through the Austrian lines on a wide front, the Italian war office announced today.

The allies have driven a great wedge into the enemy line northeast of Treviso, advancing more than five miles east of the Piave on a fifteen-mile front. Eleven villages have been captured. Numerous prisoners, approximately 7,000, have been taken, in addition to the 9,000 previously announced. The Italians have captured the important town of Alessio, in Albania, twenty miles south of Scutari.

Advance on 37-Mile Front

With Italian Armies in the Field, Oct. 29.—The Italians are now advancing on a continuous front of thirty-seven miles. The Austrian lines have been completely pierced east of the Piave.

Italian patrols have already crossed Montebello river, nearly ten miles beyond the Piave.

A number of additional bridges have been thrown across the Piave and these are constantly being added to as the engineers work with feverish haste.

Advance Along Lys

London, Oct. 29.—French troops advancing along the right bank of the Lys, have reached the railway between Petteghem and Waereghem on a front of eight miles, Field Marshal Haig reported.

French Extend Gains

Paris, Oct. 29.—The French extended their gains between the Oise and the Serre, the war office announced today.

Yank Raid Successful

Washington, Oct. 29.—Capture of a number of German prisoners in a raid on the enemy's lines and the bringing down of three German planes by American aviators was reported by General Pershing today.

"On the Verdun front Monday was marked by heavy artillery fire on both sides of the Meuse," the statement said. "An enemy counter attack against the Bois-Vellu line was repulsed. In the Woëvre, our detachments successfully raided the enemy's lines and captured prisoners."

"In spite of the weather conditions our aviators were active on the front of the first army and shot down three enemy airplanes and one enemy observation balloon."

Runs Bombard Americans

With the American Armies, Oct. 29.—The Germans opened a heavy bombardment of the American line east of the Meuse, but their counter attack had not been renewed up to the hour of calling.

Enemy aviators are unusually active.

ONLY 3 NEW CASES THOUGHT GOOD OMEN

Reports to Health Authorities This Morning Make Situation Look More Hopeful.

NO MORE DEATHS IN EPIDEMIC

The fact that only three new cases of the Spanish influenza—all of them in families where the malady already existed—were reported this morning, was regarded as a good omen. The morning mail brought no reports of new cases outside of Rushville, and only three cases were reported to Dr. J. B. Kinsinger, secretary of the city board of health. Dr. E. I. Wooden, county health officer, reported twenty-six new cases as of yesterday, to the state board of health, making a total of 599 which have been reported during the epidemic in the county. Of this total, sixteen were in the city and ten elsewhere in the county.

The absence of any more deaths also made the situation more hopeful. Although sixty-five more cases and two deaths were reported over the week-end, a comparison of new cases developing by weeks, revealed yesterday that the situation was easing up considerably.

Health authorities emphasize, however, that this is no time to be less vigilant in attempting to prevent the spread of the disease, because the danger is not over by any means.

OZRO FARTHING OVERSEAS

Ozro Farthing has arrived safely overseas, according to word received by his parents here. He is with the sanitary detachment of the 189th Field Artillery, which is believed to have landed in England.

GOES TO THE PRESIDENT

Washington, October 29.—The congress today completed the \$345,000,000 war deficiency bill and sent it to the President. The senate accepted without discussion a conference report previously approved by the house.

RUSSELL LEWARK IS DEAD

Former Resident of This City Dies From Influenza.

Russell Lewark, age 40 years, died at his home in Carthage, Ohio, yesterday morning about five o'clock from an attack of Spanish influenza. The deceased formerly lived in this city and his death is a great shock to his friends and relatives. He leaves a widow, one brother, Otto Lewark, and one sister, Mrs. Earl Banta, of Chicago. The body will arrive in the morning on the 10:51 C. I. & W. train and will be taken to East Hill for burial.

TWO REGISTRANTS LEAVING FOR CAMP

Karl Kennedy Departs Today for Ft. Sheridan and Denning Havens Tomorrow for New York.

QUESTIONNAIRES COME FAST

Total of 137 Returned Tuesday, With Indications of a Much Greater Number Today.

Registrants of the last group of the September 12 class, continue to return questionnaires to the local army board rapidly, a total of one hundred and thirty-seven having been placed in the hands of the board yesterday. The return of thirty-three up to nine o'clock this morning indicated that even a larger number would be returned today. The board mailed out one hundred and twenty-five this morning.

Two voluntary induction registrants of the 1917 class are leaving for camps today and tomorrow. Karl Kennedy, who was formerly in class two on dependency, but asked to be placed in class one, went to Fort Sheridan, Ill., near Chicago to begin training in motor transport work. Denning Havens, who was first rejected, but on his own petition was held for limited service, departs tomorrow for New York to enter the quartermasters corps.

The board this morning received instructions to delay the induction of

Continued on Page Six

GAIN WRONG IMPRESSION

Poultry Producers Think no Chickens Should be Sold Now.

Rush county poultry producers obtained the wrong impression from a statement issued by the state food administration, regarding holding back poultry at this time. Many seem to have the idea, according to men engaged in the poultry business, that no poultry of any kind should be sold. Instead, the request of the food administration was that no molting hen or immature chickens be put on market. There is no objection to selling chickens which are ready for market.

SENATOR WATSON SPEAKS THURSDAY

Republicans Hold Senate in Session to Discuss Democratic Political Moves

ONLY POLITICAL BUSINESS

Indiana Senator Asks Why Hughes Report on Aircraft Production Is Held Up

(By United Press.)
Washington, October 29.—Directing the congressional campaign from the floor of the senate, Senate Republicans have prepared for another attack on Thursday, when they meet again. They forced abandonment of the plan to take a recess until November 12, their avowed purpose being to keep the congress in Washington so that any Democratic political moves may be discussed.

There is no thought of transacting anything but political business before next Tuesday, election day. The session Thursday is to be given over to speeches by Senator Watson, Indiana, and other Republicans, with whatever Democratic replies they evoke.

The projected election recess may begin Thursday, unless Republicans decide to continue the session until the end of the week.

Discussion of the Hughes aircraft report is expected. Senator Watson asked late yesterday during the de-

TURKEY FOLLOWS AUSTRIA IN ASKING FOR SEPARATE PEACE

Revolutions Reported to Have Broken Out in Montenegro and Hungary, Independent, Anti-Dynastic State Having Been Formed in Latter Country. Austrian Proposal is Tantamount to Surrender.

ARMISTICE TERMS ARE EXPECTED SOON

(By United Press)

Copenhagen, Oct. 29.—Constantinople has proposed a separate peace for Turkey, according to information received here today. It was stated the proposal was made independently.

Zurich, Oct. 29.—A revolution has broken out in Montenegro, according to a dispatch today. The revolutionists which include Albanian soldiers, have seized Cetinje, capital of Montenegro, and Scutari, principal city of northern Albania. The Austro-Germans are evacuating the country.

London, Oct. 29.—The Austrian note to President Wilson is tantamount to surrender is the opinion today of well-informed authorities and the press of London.

RUSHVILLE LURIDLY PAINTED AS INHUMAN

Wild Rumors That City Would Not Take Soldier Sick With Influenza Off Train.

OFFICER WOULDN'T ALLOW IT

A Rushville man stated today that Rushville was being painted as the most inhuman city imaginable, in wild rumors being circulated in adjoining cities, to the effect that the authorities would not permit a soldier sick with the influenza, to be removed from a troop train passing through this city.

The truth of the matter is that a troop train did stop here last Wednesday night with the intention of leaving a soldier, suffering with the influenza, but the commander would not permit him to be taken from the train when he learned there was no hospital here in which he could be admitted as a patient.

Every effort was made here to take care of the sick man. Arrangements were made to prepare a room for him at the Grand hotel, and the relief committee of the Red Cross stood willing and ready to see that he had attention, but the officer in charge of the train said he would not leave the soldier unless he was to be taken to a hospital.

COLLAR BONE IS BROKEN

Dempsey Chaney Is Injured When Auto Skids in Fresh Gravel

Dempsey Chaney, son of Mr. and Mrs. Carlton Chaney, living just this side of Glenwood, is suffering with a broken collar bone and many bruises on his body as the result of an accident last Saturday when his machine skidded in fresh gravel, and turned over near the Allen Hinchman farm, northwest of Glenwood. Young Chaney was able to walk to a nearby farm house and was taken to his home. He is now under a physician's care, but none of his injuries is expected to result seriously.

Ripley Township Boy Is Wounded Second Time

Russell Fall, With Canadian Expeditionary Forces, Falls With Gunshot Wound in Hip and Ankle Oct. 16, According to Word Received Today by His Sister, Mrs. Earl Addison of Charlottesville.

GASSED IN 1917; IN HOSPITAL 5 MONTHS

Russell Fall, a former Ripley township boy, was wounded in action on the west front in France October 16, according to a telegram received today by his sister, Mrs. Earl Addison, of Charlottesville, from the director of records at Ottawa, Canada.

This makes the second time Private Fall has been incapacitated for service. He was gassed November 8, 1917 while on duty at an anti-aircraft post in France and was in the hospital for five months before he recovered.

Private Fall suffered gunshot wounds through the hip and ankle, according to the Canadian government message received by his sister and is now in the third Australian hospital at Abbeyville.

Private Fall, who was born and reared in Ripley township, went overseas with the Canadian expeditionary forces in February, 1917. It will be recalled that a few months ago he sent back a picture of himself and a German prisoner he captured. The former Ripley township boy almost lost his life last November because of his inability to adjust his gas mask during an enemy gas attack. At that time he was in a hospital at Basingslake, England, for five months. He is the son of Mr. and Mrs. Charles Fall, who now live at Broken Arrow, Oklahoma.

The Express says that the allied conference at Paris soon will present to Germany the terms of an armistice, which include the occupation of Metz, the Krupp arsenal at Essen, and other fortresses of the enemy.

It is believed in diplomatic circles that the publication of allies armistice terms will lead to the hoisting of the white flag of surrender by the German armies.

Copenhagen, Oct. 29.—A Cologne newspaper says a congress of German bishops has asked the pope to exercise his influence in favor of a just peace, which will present the allies from destroying Germany.

Berne, Oct. 29.—"The world war will not last longer than a few days. We must arrest the vain flow of out blood," declared the Socialist newspaper Vorwaerts, which is now regarded as virtually a German government organ.

Council Approves Bill

Copenhagen, Oct. 29.—The federal council has approved the bill amending the German constitution, as passed by the reichstag, according to a Berlin dispatch received here today.

Hungary Has Revolted

Copenhagen, Oct. 29.—Hungary has definitely revolted and formed an independent, anti-dynastic state under the leadership of Count Karolyi in co-operation with the according to a Vienna dispatch today.

Karolyi, upon his arrival in Budapest, told the crowds which greeted him that Emperor Karl had refused his program for a greater degree of Hungary and therefore an independent state was necessary.

Militarists Are Blocked

London, Oct. 29.—Reports pouring into London from The Hague, quoting German newspapers, expose a plan by General Ludendorff and Field Marshal Hindenburg to block concessions to President Wilson. Papers declare the constitutional changes were rushed to frustrate the plan. Exposure of the alleged plot is believed to have forced the resignation of Ludendorff and Hindenburg. Continued on Page Nine

Acid-Stomach Makes Life Miserable For Millions

Dentists tell us that acid mouth causes the eating away of enamel on the teeth, a substance much harder than bone. "Keep the mouth free from acid," they say, "and there will be little or no danger of decayed teeth."

Think of this—you can at once see what an excess amount of acid in the stomach—acid-stomach—means in the way of undermining one's health and strength!

Many people make the awful mistake of thinking that acid-stomach—super-acidity as the doctors call it—merely causes an occasional attack of indigestion, bloat, heartburn, belching, sour, gassy stomach, and similar troubles that can quickly be remedied—and leave no serious after-effects. As a matter of fact super-acidity is responsible for a long train of serious ailments. It sometimes creates conditions which baffle the best medical skill. It is a well established fact that most cases of chronic stomach trouble, anemia, stomatitis, gastritis, rheumatism, gout, lumbago, intestinal ulcer, many cases of cancer of the stomach, valvular heart trouble and heart failure find their start in acid-stomach.

The excess acid must be removed. The stomach must be kept pure, sweet and strong, free to digest food properly. That is the only sure way to avoid the evil consequence of acid stomach and to enjoy vigorous, robust health.

A wonderful preparation now makes it possible to quickly remove acid-stomach. It is called EATONIC—a pleasant tasting compound that you eat like candy.

EATONIC literally wipes out the hurtful excess acid and drives the bloat out of the body. You can fairly feel it work. It is absolutely harmless and no matter how weak or delicate the stomach may be, EATONIC will not cause distress.

The immediate effects of EATONIC are nothing short of marvelous. Almost instantly it relieves that miserable, puffed up feeling after eating, sour, gassy stomach, heartburn, stops food repeating, etc. Makes the stomach feel sweet, cool and comfortable. Enables you to eat what you like and digest your food in comfort. Aids digestion and helps the digestive organs to get full strength out of every mouthful of food you eat. And that is what you must have in order to be well and strong—full strength from your food.

So we say—don't let an acid-stomach hold you back and wreck your health. Don't drag out your days feeling all in, down and out, weak and ailing, lacking in physical power and energy; listless, nervous, irritable and taking only a half-hearted interest in your work. Keep the vital spark flashing. Let every organ, muscle and nerve of your body function in perfect harmony with a strong, healthy stomach. Eat the things you like but make every mouthful count. Then you'll feel fine—be fit—mentally alert—have pep and punch—the power and will to do things. That's the kind of health that makes life worth living!

Take EATONIC. Then see how much better you feel—instantly! You need this help. And you can get it easily. Your druggist has EATONIC. Get a big box today. It is guaranteed to please you in every way. You have faith in your druggist and you can trust him to make this guarantee good. If EATONIC doesn't please you just take it back and the druggist will refund your money. That is our guarantee.

Within the short space of a year tens of thousands of people all over the United States have used EATONIC. Everywhere they testify to its marvelous power to bring quick relief.

If you are sick and ailing and have tried pills and medicines in vain, don't give up hope of getting well until you have gone directly to the seat of the trouble—the acid-stomach. Don't let another day go by. Get EATONIC at once. If your druggist does not keep EATONIC, write to us and we will send you a big 50c box. You can send us the 50c after you receive it. Address H. L. Kramer, President, Eaton Remedial Company, Cor. Wabash Ave. and 11th St., Chicago, Ill.

NO OPPOSITION TO GLENWOOD EXCHANGE

Though Commission Might Permit One, War Likely Would Prevent Installation Now.

HEARING HELD YESTERDAY

Even though the state public service commission may return a decision allowing the installation of a telephone exchange in Glenwood, as a result of the hearing conducted there yesterday, it is doubtful if the government, which is in charge of all telephone companies, would permit it because of the desire to keep down extensions as much as possible on account of the war.

The hearing disclosed the fact that there is absolutely no opposition to the Rushville Co-operative Telephone company establishing an exchange in Glenwood. The president of the Glenwood town board, Guy Little, was the only resident of Glenwood present at the hearing. He stated that the town board was unanimous in its desire for an exchange, and that he had heard of no opposition in the town to such an improvement.

The need of an exchange in Glenwood has been realized a long time. Residents of the town can not be reached by telephone except through the Falmouth and Orange exchanges. The state commission set dates the hearing three times, but every time postponed the meeting, until it was finally held yesterday.

TRUCK UPSETS; MAN KILLED

Jeffersonville, Ind., Oct. 20.—Charles E. Ogle, 40 years old, a grocer at Salon, Ind., twenty miles northeast of here, was killed when the motor truck turned over and crushed him. No one saw the accident.

Mrs. Jones Tells How PEPSINCO Helped Her Stomach!

I just suffered everything. Nothing agreed with me at all. A few minutes after eating I had pain, sourness and as a rule would belch bad tasting stuff.

I tried doctors; I tried medicines; all without effect. Pepsinco was recommended. I honestly believe that I can thank Pepsinco for my good health today.

I can eat anything and I am without pain. I would suggest that if there is anything wrong with your stomach, that you go to any drug store and get a small package of Pepsinco.

The above is a testimonial from a party who followed the advice of a friend, and now you do the same.

Asbestos Fiber

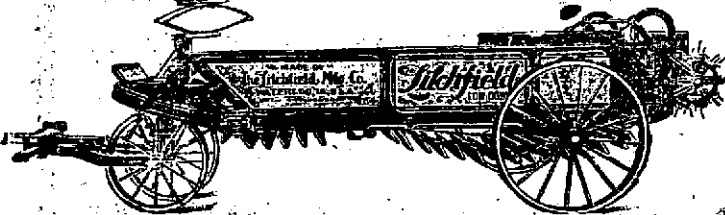

NOW IS THE TIME TO REPAIR YOUR GRATES AND GAS RADIATORS WITH ASBESTOS FIBER.

FOR SALE BY

JOHN B. MORRIS

LET THESE COLUMNS BE YOUR GUIDE

Repairing a Manure Spreader.

One of the strong inducements in favor of our handling and pushing the sale of the "RUSHVILLE SPECIAL" Manure Spreader is the REPAIR question. Sometimes our customers think we make a lot of money on repairs—a good deal more than we do. But we like to keep away from the repair question if we can, and in selling a machine, if we could get one that would never have a repair on it until it was entirely and completely worn out, this would be the kind we would sell every time.

Our manure spreader which we have been talking to you about and which is proving so effective in the field, comes as near being repair proof as any machine we ever saw. The reason it requires little or no repairs is the very same reason that gives it such light draft and it is because of this reason that it is sold under a FIVE YEAR GUARANTEE.

The machinery runs so light and there is so little friction that the team does not apply power enough to the machine to wear it out. If it doesn't wear out it doesn't need repairs. This is our simple analysis and it is a true one.

Some machines simply tear themselves to pieces and are constantly in the repair shop or being tinkered up in one way or another, not because the owners abuse or misuse or are neglectful of them, but simply because they won't stand the racket. We don't have to expect our spreader, don't have to look after it—it takes care of itself and we eliminate the repair question. Come and see it.

RUSHVILLE, INDIANA

COAL PRODUCTION DROPS

Terre Haute, Ind., Oct. 29.—Production of coal by Indiana mines dropped to 666,665 tons during the week ended October 19, as against 692,228 tons for the preceding week, according to reports to the district representative of the United States fuel administration.

SUGAR DESTROYED BY FIRE

South Bend, Ind., Oct. 20.—Seventy thousand pounds of granulated sugar were ruined in a fire here. The sugar was stored in the Atlantic and Pacific Building, preparatory for distributing to branches of the concern.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning, and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste, and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, spots, stomach trouble, others who have yellow skins, blood disorders and skin complications are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make one's system pure, clean, and the subject of no more health troubles.

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Greatest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health-building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here is: Lactates Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powder Ben-zoin; Phenolphthalein; Quassia Capsicum; Kola.

Utmost In Values

Your money talks here—talks loud. It also talks to some purpose. It secures for you the ultimate in value in one of these cars.

FRANKLIN — HUPMOBILE — DODGE

Either one of these automobiles is worth every cent of the price because of the Full Value in the cars themselves. A careful examination will prove our argument.

New Dresses For Fall and Winter Wear

In spite of the advancing market, we are offering these splendid frocks at prices that will surprisingly please you.

The figures are really based on calculations of months ago, when fine blue serge that then cost the makers \$3.75 a yard, today is over \$1 more.

You reap the benefit of this saving, but we advise you to **MAKE AN EARLY INSPECTION** of these garments, because the quantities are limited and the values can not be replaced in **ALL-WOOLEN** materials this Fall.

The best of makers sent in these dresses only a few days ago, and were we to re-order them it could be only on the basis of selling them for from \$4 to \$6 more.

—Mr. and Mrs. E. L. Carpenter and daughters Elizabeth and Evelyn have returned to their home in Indianapolis after a week's visit here with Mr. and Mrs. J. Q. Thomas.

—Mr. and Mrs. Lewis Swartz, Mr. and Mrs. August Mattern, Mr. and Mrs. Carl Mattern and son Robert Eugene, of Indianapolis, were the guests of Mr. and Mrs. Louis Gohring Sunday.

Mrs. Elizabeth Toms, eighty-five years old, has severed her connection with the Tyndale public school, Philadelphia, of which she was janitress for fifty years.

Days Pickings

Mr. and Mrs. Rhoderic Dana of Carthage, are ill with the influenza.

Mrs. Ed. Miller, who has been ill with the Spanish influenza, is recovering.

William Orme, who has been seriously ill with pneumonia following the influenza, was reported to be better today.

Miss Mildred Smith of Carthage, is very seriously ill with the Spanish influenza, and there are no hopes for her recovery.

Mrs. John Ferguson and Mr. and Mrs. Roy Ehnus and son, colored, are all ill at the Ferguson home in East Eighth street with the influenza.

Announcement has been received here of the birth of a son to the wife of Clarence Stevens of Albany, Oregon, son of Mr. and Mrs. Sanford Stevens of this city.

The case of Max N. Kashland against Alva N. Harold and Isador Hessel, for \$750 on notes, has been dismissed in the circuit court by the plaintiff at his costs.

Miss Clara Margaret Brattain and Harry Hood, both of Fayette county, were quietly married October 26, at the home of the Rev. John T. Senil, living west of Milroy.

Everett Wright, who has been critically ill with catarrhal pneumonia, following an attack of influenza, was reported better yesterday, but today his condition is again critical.

Dr. John M. Lee has opened an office for the practice of medicine in the office formerly occupied by Dr. Verl Behout, in Main street. His office phone is 2041 and his residence phone 1738.

Pupils of the High School Literary Digest club, may get copies by calling at the window of the Graham high school building office tomorrow afternoon between 2 and 3 o'clock, it was announced today.

Mrs. E. W. S. Hammond, wife of the pastor of the Second M. E. church, was recently appointed president of the United States food clubs of this city, by F. B. Ranson, state director of the colored food clubs.

Finding the judgment for the plaintiff, quieting the title, has been returned by Judge Sparks in the cases of Charles E. Morris against William McAlldridge and others, on the default of each of the defendants. The costs were assessed on the plaintiff.

Word was received today of the death of Francis Tommsino, colored, about 40 years old, at his home in Springfield, O., Sunday evening at 5 o'clock, of the Spanish influenza. He was the husband of Mrs. Emma Hammond Tommsino, who is the daughter of the Rev. E. W. S. Hammond, pastor of the Second M. E. church.

From 100 pounds of skim milk, 15 pounds of cottage cheese may be made. This is equal in food value to 22.5 pounds of pork.

Cut This Out—It is Worth Money.

DON'T MISS THIS. Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Avenue, Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills, for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache and sluggish bowels. F. B. Johnson. Adv.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils. Let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh of the nose needs. Don't stay stuffed up and miserable.

It Pays to Buy the Best

But every housewife should remember that the best is not *always* the highest priced. Experience has taught me that you can't always judge quality by the cost sign.

That is particularly true of baking powder. Baking powder quality can be determined only by bake day results. The baking powder that serves you best—regardless of what you pay—is the best to buy and use.

I have made a close study and careful investigation of baking powder, because it is unquestionably one of the most important of baking materials. It effects all ingredients employed with it.

No woman, no matter how careful her selection of flour, sugar, eggs, etc., can employ the limit of baking economy if she uses a poorly made, wasteful baking powder.

Merit, not money, is the only safe basis upon which to estimate the worth of a baking powder. Fortunately the housewife no longer has to conduct costly experiments of her own to determine just which particular brand is the most efficient and economical. Experts like myself, make a business of testing baking powders and accurately arriving at their actual value. We make no mistakes in our decisions as our experiments are made along strictly scientific lines.

Millions of women are now profiting by the aid offered by domestic scientists.

I know this to be true—as choice is now centered on the brand of baking powder that I and other domestic scientists have found superior through both chemical and oven tests. It is becoming more popular every day. Its tremendous sales increase was not influenced in the least by cost. It is a moderate priced baking powder. Costs considerably less than some other brands. Still it is preferred by women who could and would pay more were it possible to secure the desired quality. They don't buy this brand of baking powder because of a saving of cost—but because of its demonstrated superiority. To them it means the greatest quality value—the greatest purity—and greatest certainty of results that can be had at any price. Decidedly the best, not because of moderate price, but because of its unimprovable merit.

In justice to those who read this article—that they may share in the savings and baking success assured by the biggest selling and recognized superior baking powder it is no more than fair that I give publicity to the brand preferred alike by experts and America's millions of housewives—*Calumet Baking Powder.*

Tuesday, October 29, 1918.

The Republicans were anxious to put through a complete law, when the first draft act was passed, that would have made unnecessary the second.

It was seen that in the passage of the first selective service law of April, 1917, the democratic leaders utterly failed the president, and if the republican leaders had not rallied to his support the United States would have been forced to begin the war with a volunteer force which would have meant indefinite postponement of a final knockout blow to Germany. The success of the American troops in France in the summer of 1918 and their continued wonderful successes may be traced to the vigor of the republican-congressional leaders, who forgot party and became patriots.

Wash That Itch Away

There is absolutely no suffer from eczema who ever used the simple Wash D. D. D. and did not feel immediately that wonderfully calm, cool sensation that comes when the itch is taken away. This soothing wash penetrates the pores, gives instant relief from the most distressing skin diseases.

(Advertisement.)

The necessity of a large force was not realized at first by the administration, while the republican leaders were asking that the advice of the army and navy officials be relied upon and a large army raised immediately.

The republican leaders in the senate tried vainly last June to get through a similar law to the second draft law recently enacted, but were blocked by democratic evasion and uncertainty.

The second draft law finally had to be passed, and the democrats were forced to come around to its support.

Foreigners in Washington are constantly impressed with the republican record in congress on the draft acts. They are astonished to know that it was not the dominant party, but the minority party, to which all civilization owes its new and liberating hope—the American army, as it exists today in sufficient numbers and properly equipped and trained to win the war. The republicans, not the democrats, led the fight for the selective service acts, and the republicans and not the democrats won the fights.

The republicans have been handicapped in the present congress through not quite controlling the majority. They have been strong enough to prevent the defeat of any war measures, but frequently they have won by narrow margins and always they have been obliged to work without the advantage of controlling the legislative machinery. With that in their hands, as it appears will probably be the case in the 66th congress, the nation need not fear that there will be the slightest chance of hesitation or delay in the prosecution of the war to a victorious peace or in dealing with problems after the war.

How foolish all these kaisers and kings were. They were a surviving medieval feature in a modern age—and if they had only kept quiet they might have endured in comfort and prosperity for some time.

Barrage**GHOSTS**

By CHARLES B. DRISCOLL

(Written for United Press.)

Ghosts of murdered men and women,
Ghosts of Flanders, of Louvain,
Rise before the frightened Prussian,
Whispering, "So many slain!"
Ghosts of schemes for world dominion,

Ghosts of victories unwon,
Ghosts of starving mothers, crying,
"Give me back my soldier son!"
Ghosts of power unavailing,
Ghosts of puissance long fled;
Worst of all, the pallid faces
Of the host of soldier dead.
Now behold the Prussian Terror,
Baffled, beaten, and at bay,
Cursed outcast of creation—
This is Wilhelm. This, The Day.

band a diamond ring for a birthday that though the ring would not fit any of his fingers it would fit two of her remarkably well. so he took the hint and asked her to wear it for him, which she good-naturedly agreed to do.

Later, when her birthday arrived, he got even by buying her a large box of his favorite brand of cigars.

The government has not urged us to abandon the practice of giving Christmas presents, but we are recommended to give articles that the recipients would have to buy for themselves anyhow, and to restrict presents of candy and other sweet-stuff to children. The storekeepers of Rushville have made special preparations to meet these conditions.

The government has also expressed the hope that the shopping season will be extended over October, November and early December, to prevent the usual pressure at Christmas, and spare retailers the necessity of putting on extra help at the end of the year. All the man-power and woman-power in Rush county, and out of it will be needed for other things at that time.

It is evident from this that the authorities are not only unwilling to restrain the spirit of Christmas festivity, but actually to stimulate it. We shall get lots of fun finding out the sizes of each other's hats, shoes and underwear, though we had better inject a little discretion into our investigations.

Within our limits there is no reason why the government's suggestions should not be taken with considerable literalness. It's wartime, friends. Let's inaugurate the new movement this week.

**Stop the "Snuffles"**

If you want to make your distressed babies easy and comfortable, give **Foley's Honey and Tar.**

It is just what they ought to have for feverish colds, coughs, "snuffles," and wheezy breathing. It stops croup, too. **Foley's Honey and Tar** tastes good and the little ones like it. It contains no morphine, chloroform or other drug that you wouldn't like to give to young children. Do not accept a substitute.

Mrs. R. H. Garrett, Schoolfield, Va., writes: "My baby was stricken with a severe cough and cold at one month old. I gave him ten to fifteen drops of **Foley's Honey and Tar** every three hours and it sure did help him. He hasn't been sick a day since."

FORMER FALMOUTH PHYSICIAN KILLED

Dr. L. A. Mitchell of Liberty Meets
Death in Crossing Accident At
Cottage Grove

CAR HIT BY FREIGHT TRAIN

Dr. L. A. Mitchell, of Liberty, a former Falmouth physician, was instantly killed while crossing the C. & O. railroad at Cottage Grove, Union county, in his automobile, yesterday at noon. Dr. Mitchell was making professional calls when he was run down by the freight train. A blow on the head resulted instant death.

Dr. Mitchell was a native of Dublin, Wayne county. He began the practice of his profession at Everton some twelve year ago, and remained there for about seven years. He then removed to Falmouth but after about two months he removed to Liberty, where he has since resided and was enjoying a lucrative practice when so suddenly and sadly called.

Dr. Mitchell leaves a widow, also a native of Dublin, and four children, Joseph, Helen, Beatrice and an infant son, name not known.

**HOWARD CAMPBELL**

Republican Candidate for the Office of
COUNTY RECORDER

He was born in Rush county; has lived in the county all his life. Is a graduate of the common schools of Orange Township and of the Milroy High School.

He solicits the support of the voters of Rush county and will be grateful for all assistance given his candidacy.

Are You Republicans of Rush County Traitors To Your Country!

Are You Loyal and Patriotic People Who Have Supported Every War Measure and Have Given Your Sons For War, Supporters of the Kaiser, as Charged in the Following Language of Fred F. Bays, Democratic Candidate For Congress in the Second Indiana District:

"The Republican party has had no leader since Count Von Bernstorff was handed his passports and kicked out of the United States."

"The Republican party is and has been spreading the propaganda of the German Kaiser."

"The Republicans want to win the war quick by stabbing the President in the back."

"Will Hays, Republican national chairman, was at Lincoln, Neb., but a day or so ago spreading the seed of dissension."

"All men are satisfied with the present Congress but the Republican politicians, the Kaiser and the war lords."

"The Republican congressmen supported the war measures only after the lash of public opinion had been applied."

"The Republican leaders have their hands stained with the blood of their countrymen."

"I want to go to Congress to fight by the side of President Wilson. God has been good to us. He gave us Christ to save the world and Wilson to free it."

REPUBLICAN ACTIONS SPEAK LOUDER THAN DEMOCRATIC WORDS

Five Republican members of the present Congress have resigned to volunteer in the army; five Democrats have resigned, four to take more lucrative official positions and the fifth to better his financial condition in private life.

Albert Johnson, of Washington; Royal C. Johnson, of South Dakota; F. H. LuGuardia, of New York; A. P. Gardner, of Massachusetts, and Victor Heinz of Ohio, all Republicans, and members of the 65th Congress, are all volunteers in the army. Major Gardner has made the supreme sacrifice.

The Democratic members of Congress who have resigned are:

Daniel J. Griffin resigned from the House to become sheriff of Brooklyn.

Murray Hubbard resigned to accept an appointment as Commissioner of Docks and Fisheries.

William C. Adamson, who was chairman on the Committee of Interstate and Foreign Commerce, one of the most important committees of the House, especially at this time, resigned to become a member of the Board of Appraisers of New York.

John J. Fitzgerald resigned from the House to take up the "practice of law" in order to make some money for himself and family, as he said, not being able to save anything on a Congressional salary.

Henry Brookner of New York resigned to become president of the Borough of Bronx.

CITED BY FRENCH AND AMERICANS

Miss Hazel Bennett Will Receive Cross of Distinction if She Gets One More Citation.

BARELY ESCAPES HUN BOMB

Hospital on French Front is Hit Two Days After Americans Left—Twice Evacuate Hospitals.

Miss Hazel Bennett, formerly of this city, who left the United States as a nurse with Base Hospital No. 82, which was organized in this state, spent six weeks in a hospital on the French front, which eventually had to be evacuated and was bombed two nights afterwards, according to a letter describing her thrilling experiences, received by Miss Lucile Linn.

The second location was even as hazardous, Miss Bennett writes, and after remaining there only three days, the hospital staff and patients had to depart. Miss Bennett has received honorable mention from the French and Americans, and if she receives one more citation, she will be given the Cross of Distinction. Her letter follows:

I think that I have told you just a little about my wonderful experience on the French front where for six weeks, day and night continuously, we were bombed and shelled—the situation got so serious that we had to evacuate our hospital—all the windows in the chateau, where we Americans were living, were broken and two days after we evacuated, our hospital was bombed. The Germans were only five kilometers from us at one time and I even had visions of being a prisoner with all these Hunns with bayonets pointing at me, guarding me. But it is not so bad with the doctors and nurses; they keep us imprisoned for six months and then turn us back, if they don't see fit to kill or torture us in some manner. However, we got away from them and went to another place

on the French front.

After being at this place for only three days, the situation again became very serious and we (three doctors and two nurses and our American equipment) were placed in charge of a hospital boat and again we had to evacuate all our patients down a river.

It was a wonderful trip and the day was lovely—only the sound of guns—and the sight of the French blessers (harvester) made me realize things as they really were. After the patients were sent to a place of safety we Americans again returned to the place where we left. The French doctors and our team stayed at this place for days, where things were more than lively and let me tell you, my thoughts were running in all directions. I even wondered if I would ever see my own U. S. A. again. But luckily, I came out ahead of the 'Boche' and then—well things got so much better that I

Sectional or National Administration?

It is history that the Republican party never was responsible for class legislation; neither has it ever adopted a policy of sectionalism. Its sole aim, always, in legislation, has been the welfare of the nation as a whole.

The present national Democratic administration is sectional. The South is in the saddle, riding high. The southern states paying 10 per cent of the taxes, are running Congress. The important committee machinery in both houses is headed by chairmen from the southern or border states.

The north pays about 90 per cent of the income tax, which is the chief source of financial support of the government at this time.

The north has about 80 per cent of the wealth and 70 per cent of the population, and it is the seat of the industrial centers.

But the south, which has 30 per cent of the population, 20 per cent of the wealth, and pays 10 per cent of the federal taxes, runs the whole show.

One Democratic leader, Claude Kitchen, chairman of the ways and means committee in the House, a southerner, said recently: "This is the North's war, and the North will have to pay for it."

Cotton goes unregulated while other staple commodities raised in sections other than the dominant South are regulated by Washington.

The Bourbons today are recognized and have blocked all efforts to fix cotton prices.

The other day President Wilson wired to a Georgia Democrat: "There is no cause for concern over the price of cotton."

If you do not approve of an administration policy that fixes selling prices for Indiana and northern producers of wheat and permits the cotton of the southern planter to go unregulated; if you do not approve of a policy that decrees one section of the country shall go "gasolineless" on Sunday while other sections are unrestricted; if you do not approve of a policy that makes it possible, at the whim of Southerners in control of our National Congress, to favor one section of the country and discriminate against and punish another section, there is one sure way to change this governmental policy and that is to elect a Republican Congress—one that will not be controlled by shortsighted Southerners.

Artillery Drive Great Wedge On Wide Front in Pjave Region

Continued from Page One

tive on the front of the second army in the Woevre region where the artillery fighting is normal.

Deserters insist that the Germans are removing their artillery to the rear and that there are considerable movements of all kinds of material throughout the Lorraine region.

Other deserters claim the Germans are holding Austro-Hungarian soldiers in the front line as hostages as a guarantee against a separate peace, in the meantime withdrawing their own troops.

Great Battle Rages

Vienna, (Via London,) Oct. 20.—"East of Brenta, a great battle is raging on a front of thirty-seven miles," the Austrian war office announced today.

With silage in the ration, dairy cattle can be kept in the condition of health common to animals on pasture.

TANKAGE FEED IS PROFITABLE

MEANS SAVING OF CORN IN PUTTING THE POUNDS ON MR. PORKER QUICKLY.

By J. R. WILEY
Swine Specialist, Purdue Extension Department.

Eighty-three and a half per cent of the cost of producing a hog is feed that is consumed, according to data recently obtained by the farm management department at Illinois University. This is a much higher percentage for feed than is the case with dairy cattle or beef cattle. So the biggest problem that we have in pork production is to handle our feeds in such a way that they return the maximum amount of grain. Especially during wartimes, when increased production of food necessities is so vital to our success, is it imperative that we make the most economical use possible of the feeds utilized for hogs. We must study to produce 100 pounds of pork with the smallest possible amount of feed.

The biggest opportunity for feed economy is in using balanced rations. We have talked balanced rations for a long time and yet no question has been asked us more frequently this summer: "Does it pay to feed high-priced tankage or other protein supplements to hogs?"

Ordinarily the farmer figures that he is getting a good pork return from corn alone if he obtains ten pounds of gain for each bushel of corn which he feeds. This means that the farmer who feeds corn alone calculates on feeding 560 pounds of corn for every 100 pounds of gain made by his hogs. Experimental work made at the various stations show that the farmer is about right in this estimate. If the hogs were given an opportunity to eat what tankage they want with the self-feeder along with the corn, they will consume about thirty pounds of tankage and 400 pounds of shelled corn for each 100 pounds increase in weight.

How Corn is Saved.

This means that there is a saving of 160 pounds of corn from feeding thirty pounds of 60 per cent tankage in comparison to feeding corn alone.

In September it cost about \$1.50 to \$1.55 a bushel for corn, or \$55 a ton and tankage retailed in small lots to farmers at about \$110 per ton, so the farmer is paying twice as much a pound for tankage as the corn costs him, or thirty pounds of tankage cost as much as sixty pounds of corn. This still leaves a net corn profit from the buying and feeding of tankage amounting to 100 pounds for every 100 pounds of pork produced. In other words, for every \$1 invested in tankage the farmer receives about \$3.50.

TWO REGISTRANTS LEAVING FOR CAMP

Continued from Page One

registrants who have appointments to military or naval academies. They are allowed ninety days after the date of their entrance examination. When they have passed the mental examination and are ordered to present themselves for physical examination, their induction shall be delayed thirty days more, if necessary, the instructions state.

Irvin Greely, son of Mr. and Mrs. Enos Greely, is an alternate for the appointment from this district, to West Point, but the instructions can not be applied in his case because he has already been voluntarily into the S. A. T. C. at Indiana University, Bloomington.

An anticipation of heavy draft calls, because of calls having been cancelled and postponed this month, due to the epidemic of Spanish influenza, the state conscription officer, Major Baltzell, has issued a statement to local army boards, informing them that heavy calls will be made as soon as the health of the state permits the movement of men. He further suggests that a limited number of men be called for physical examination each day, fixing the hour at which they are to appear, so that the number appearing at any hour may be examined and out of the way before the next group appears. He cautions that there should be good ventilation in the examining and waiting rooms.

The instructions are not applicable here now because the board has examined all the men in class one and further examinations depend, for the present, on the number of men placed in class one by the district board.

"Physicians are scarce in some localities," the statement continues, "but if physicians are available, please complete examinations as quickly as possible. This department is not unmindful of the necessity of taking every precaution against the spread of influenza and local board should exercise great care in calling men for examination. However, it is our opinion that the work of physical examinations can be completed within a short time without spreading this epidemic further by following carefully the above plan."

GEO. ANDERSON DIES AT THE SOLDIERS HOME

Former Colored Resident of This City Expires at Dayton, Ohio, at Age of 80 Years.

SERVED IN THE CIVIL WAR

George Anderson, colored, died at the soldiers' home in Dayton, Ohio, according to the word received by Allen Daniels, who was his guardian for the past years. The deceased was 80-years of age and for thirty years was a resident of this city. He was in the dray business until the past few years. He was in the dray business until the ridge county, Virginia in slavery, and he was separated from his parents, being located in Carriel county, Kentucky. He enlisted during the Civil war and served for four years. After the war Mr. Anderson settled in Shelbyville, Indiana, later moving to this city. He will be buried tomorrow at one o'clock at the Dayton soldiers' home.

Signor Berenini, Italian minister of education, has ordered the establishment of chairs of English and French literature in every Italian university.

Catarrh Vanishes

Here is One Treatment That All Sufferers Can Rely Upon

If you want to drive catarrh and all its disgusting symptoms from your system in the shortest possible time, go to your druggist and ask for a Hyomei outfit today.

Breathe Hyomei and it will rid you of catarrh; it gives such quick relief that all who use it for the first time are astonished.

Hyomei is a pure pleasant antiseptic, which is breathed into the lungs over the inflamed membranes, it kills the catarrh germs, soothes the sore spots, and heals all inflammation.

Don't suffer another day with catarrh; the disease is dangerous and often ends in consumption. Start the Hyomei treatment today. No stomach dosing, no sprays or douches; just breathe it—that's all Ask Johnson's Drug Store.—(Adv.)

NOTICE TO NON RESIDENTS.

The State of Indiana, Rush County. In the Rush Circuit Court, September Term, 1918.

P. J. Sattler, admr. estate of Jemima Smith vs. Newton Smith and Alfred Smith. Complaint No. 1555.

Now comes the plaintiff, by A. L. Gary, attorney, and files his complaint herein, together with an affidavit that said defendants, Newton Smith and Alfred Smith are not residents of the State of Indiana; that said action is for petition to sell real estate to pay debts and that said non-resident defendants are necessary parties thereto.

Notice is therefore hereby given said defendants, last named, that unless they be and appear on the 30th day of November, 1918, at the court house in Rushville in said county and state and answer or demur to said complaint, the same will be heard and determined in their absence.

Witness my name and the seal of said court, affixed at Rushville this 7th day of October A. D. 1918.

LAST INSTALLMENT DUE

Final Payment of Red Cross War Fund Must be Made Next Month

Officers of the Rush county chapter of the American Red Cross have called attention to the fact that next month is the last for making final payments on the second Red Cross war fund, which was subscribed last summer. A number of subscribers paid their contributions in installments, the last one which is due next month. Previously the Red Cross has sent notices to all subscribers notifying them when payments were due and it is urged that all play up promptly, so that it will not be necessary to go to the expense of sending out notices again.

CITED BY FRENCH AND AMERICANS

Concluded from Page Five

found relief in breathing freely.

To make short a long story, we were called in from the French to care for our own boys at Chateau-Thierry where we did a wonderful work. We got honorable mention and someday when I come home, I'll take delight in showing you my citations—one from the French and one from the Americans. If I succeed in getting one more I will receive the Cross of Distinction from Pershing.

We are on another part of the American front now, where we are expecting much activity soon.

Just now I'm sitting in the surgery—our surgical team is on call but there are very few cases coming in. This is our schedule: We go on duty at 6:30 p. m.; work until 6:30 a. m.; then are off until noon and then are off until noon and then on until 6:30 p. m.; then off all night then on again from 7 a. m. to noon, etc. Between times we go in the wards and dress the wounds. Our boys are wonderful patients. I'm sure their mothers would feel very proud if they could see how they stand their suffering. There spirit is wonderful. The only thing I regret in this war is that I am not a boy and can't do more for my own U. S. A.

I have met some wonderful men over here and while on the French front I had the pleasure of meeting some of the eminent French surgeons of the day. Treated me as if I were their idol. I shall never forget how kind and gracious they were. Most all spoke good English. The French are a wonderful people and I certainly do admire them for their wonderful spirit. Even after four years of war, it has never weakened. They love the Americans and enjoy telling us, "we saved their country". And we enjoy hearing it.

Our boys have done a wonderful work and have won the war. Yes, it is won but not finished. It won't be long now, at the rate we are going and soon our boys will be in Metz. Oh happy day!

We have had many German and Austrian soldiers who have been wounded and when they come in the operating room, it is pitiful to see how frightened they are. They think we will kill them outright and after we dress or operate on them, they are the most surprised creatures you can imagine. They think we are wild and not human until they fall directly in our hands. They all tell us that we have won the war and it will soon be finished. Most all of them speak English. They all look poorly fed and tired and usually they own they are glad to be taken prisoners.

I could write long letters on these things but must close for here comes a litter with a patient and five minutes will find me scrubbed up and passing instruments and sponges to my assistants.

From disease; 99 wounded severely; 145 wounded (degree undetermined); 40 wounded slightly; 65 missing in action; 2 prisoners.

There are eight Indiana men in the overseas report, that are divided as follows:

Wounded severely—Mechanic William Thurman, Thurland; Private Grant C. Robinson, Bowling Green.

Missing in action—Private Arval R. Banton, Laporte; Private George Chatman, Indianapolis.

Prisoners—Private Edward John Harty, Lafayette.

Killed in action—Private John J. Kerberry, Jeffersonville.

Wounded (degree undetermined)—Sergeant Lue E. Schrock, Nashville; Private Roy Pollitt, Morristown.

DANGER AFTER SPANISH INFLUENZA OR GRIPPE

How It Can Be Avoided and Treated. Simple Rules to Be Followed. No Occasion for Panic

No need of anyone being afraid of the after effects and slow recovery from Spanish Influenza, hard colds or Grippe, if they will use common sense and start in building up their health and strength the right way. The main thing is to get the blood rich, red, and pure, so it can carry life-giving oxygen and strength to every part of the body. Impure blood is the cause of so many slow recoveries and set-backs.

Doctors say: "Get the blood right and the rest is easy, that nine-tenths of all sickness is due to lack of iron and phosphates; the healthy strong, vigorous man or woman's blood is always loaded with these two life-giving elements".

Physicians also claim with fresh air and nourishing food nothing equals Phosphated Iron as a blood tonic and health builder. Phosphated Iron takes hold from the first dose. Results are seen and felt; strength returns, food digests, appetite picks up, sleep is restful, there is a color in the cheeks and a sparkle to the eye that only blood charged with iron and phosphates can give.

It is the duty of everyone who has had Spanish Influenza, Grippe or a hard cold to build up their system with nature's tonic, Phosphated Iron. It sure is health protection. Safety first. The results will repay you many times. Give yourself a show. Special notice: To insure doctors and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules.

DRUGGISTS!! PLEASE NOTE VICK'S VAPORUB OVERSOLD DUE TO PRESENT EPIDEMIC

Tremendous Demand Last Few Days Has Wiped Out Excess Stocks That We Had Estimated Would Last Until Next January. Last Week's Orders Called For One and Three Quarter Million Jars—Today's Orders Alone Amount to 932,459 Jars.

Big Shipments Are En Route to Jobbers. Until These Arrive There May Be a Temporary Shortage. All Deals Postponed—Buy in Small Lots Only.

RETAILERS CAN GET IMMEDIATE SHIPMENTS DIRECT BY PARCEL POST.

This advertisement is written on Monday, October 21st. It is directed to the attention of all distributors of Vick's Vaporub, both wholesale and retail. In an emergency such as the present epidemic—our duty—and your duty—is to distribute Vaporub in the quickest possible manner to those sections stricken by Influenza. We, therefore, call your careful attention to the following:

DANGER OF SHORTAGE IF SUPPLY IS NOT CONSERVED.

On October 1st we had on hand, at our Factory and in twenty warehouses scattered over the country sufficient Vaporub to last us, we thought, until January 1st, allowing for a 50% increase over last year's sales, and not counting our daily output. This big excess stock had been accumulated during the summer months.

Then this epidemic of Spanish Influenza hit us—and in the last 10 days this stock has vanished. At first we thought this tremendous demand would last only a few days, but the orders have run:

Wed., Oct. 16—18,504 Doz.
Thurs., Oct. 17—25,323 Doz.
Fri., Oct. 18—39,256 Doz.
Sat., Oct. 19—45,833 Doz.
Mon., Oct. 21—77,705 Doz.

Up to Saturday, October 19th, we have actually shipped for this month \$400,284.10, or over two million jars of Vaporub.

THE PROBLEM NOW IS TO DIS-TRIBUTE VAPORUB QUICKLY.

Most of this tremendous quantity is still en route to the jobbers, but freight and express are both congested nowadays, and it may be some time before this supply reaches the jobbers. In the meantime, therefore, it is necessary that we distribute as widely as possible, the stock that we are manufacturing daily, together with that now on the jobbers' and retailers' shelves, in order that it may get to the Influenza districts quickly. Our normal output is about 4,000 dozen per day. We are putting on a night shift, but it will be a little while before that is producing.

WHAT WE ASK THE WHOLESALE DRUGGISTS TO DO.

Last Saturday we notified all of our jobbers, by Special Delivery, as follows:

- 1st—Deals and quantity shipments of all kinds are cancelled. Fill no quantity orders of any kind, whether taken by our salesmen or by your own. Sell in small lots only.
- 2nd—Orders from us in as small quantities as possible. If you are out, we will try to ship a limited amount by Parcel Post or

Express, and pay the charges ourselves.

3rd—In order to make distribution still quicker, we will ship direct to your retail customers quantities not more than three (3) dozen 30c size at any one shipment.

4th—We are now out of the 60c size and will be for the next 10 days.

WHAT WE ASK THE RETAIL DRUGGISTS TO DO.

Buy in as small quantities as possible. If you have any quantity orders, given the jobber's salesmen or given to our salesmen, don't bother about them—no need to write us—it is absolutely impossible to fill these orders at this time. If the jobbers in your territory are out of Vick's Vaporub we will ship you, by Parcel Post, prepaid, quantities not more than three (3) dozen 30c size in any one order. Naturally we can't open accounts at this time, so your check or money order for this amount must accompany order. Don't write us stating to ship thru your jobber, as we then have to wait until we write this jobber and get his O. K. If you wish the goods to come thru your jobber, have him order them for you.

SNOWED UNDER WITH CORRESPONDENCE.

Our force has already been "shot to pieces"—twenty-four of our men are wearing Uncle Sam's khaki—and this recent rush has simply buried us. All our sales force has been called in to help in the office and factory. We just mention this so you won't hold it against us if your wires and letters aren't answered promptly.

SPECIAL BOOKLETS ON SPANISH INFLUENZA.

We will send, on request, to any retail druggist, 100 or more little booklets, just issued, on Spanish Influenza, giving the latest information about this disease—its history—the symptoms—the treatment, and particularly the use of Vick's Vaporub as an external application to supplement the physician's treatment.

NEW WAYS TO USE VAPORUB

In addition to the usual method of using Vaporub—that is, applied over the throat and chest and covered with hot flannel cloths—our customers are writing us daily telling of their success in using Vaporub in other ways, particularly as a preventive. They melt a little in a spoon and inhale the vapors arising, or melt it in a benzoin steam kettle. Where the steam kettle is not available, Vaporub can be used in an ordinary tea kettle. Fill the tea kettle half full of boiling water, put in half a teaspoon of Vaporub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

According to a Bulletin just issued by the Public Health Service, Dr. Stiles, of this Service, recommends that the nose be kept greased as a preventive measure against influenza germs. For this purpose Vaporub is excellent.

THE VICK CHEMICAL COMPANY, Greensboro, N. C.

URGE ELECTION OF DEMOCRATS

Moving Picture Slides Sent Here With Request They be Run As Patriotic Measure.

EACH BEAR WILSON LIKENESS

Appeal to People to Elect Supporters so Hugs Won't Think People Turned Down President.

A local theater man, who has supported every patriotic effort by running advertising slides free of charge, has been requested to show advertisements on the screen for the election of men in harmony with the president. The request was made on the theory that it would aid "the patriotic work" and came simultaneously with the appeal by President Wilson for the support of the democratic ticket, regardless of any candidates record on the war, at the election next Tuesday.

This indicates a nation-wide propaganda by the democratic party to use the patriotic impulses of the people who have liberally supported the government in all war endeavors, in re-electing its ticket. Managers of moving picture theaters received similar slides with the same request they be run as a patriotic measure.

It is not known who sent out the slides. There is nothing in the box in which they were shipped to reveal the identity of the sender, but there is a little label, which reads as follows:

"Unity of action is an essential now in Washington as unity of command is in France—Run the inclosed slides and aid in the patriotic work of electing men in harmony with President Wilson, who will help him win the war."

On the corner of each of the four slides is a picture of President Wilson. The slides all bear on the same subject—that of supporting the president. For instance, one of them says:

"Don't let it be said in Germany that America turned Wilson down. Elect supporters, not critics, to Congress who will help win the war."

No letter accompanied the slides. It is said, and it is not known who ordered them to engage in this enterprising bit of political propaganda. The label bears the name of the man who made the slides, not that of the propaganda promoters.

The attitude of the local manager, in common with others is that such matter is straight advertisement and should be treated as such.

Tom Meredith, Jr., son of Mr. and Mrs. Bert Meredith, formerly of this city, is an ensign in the navy, according to word received by relatives here. He is on duty on a submarine chaser and is in charge of thirty men. Ensign Meredith makes his headquarters at Miami, Florida, and the cruise of his vessel covers 800 miles.

BERGER AND FIVE HELD

Milwaukee, Oct. 29.—Former Congressman Victor L. Berger, and five other persons were taken into custody today by Federal Marshal Randolph on federal grand jury indictments. They were to be arraigned before Federal Judge Geiger, at which time it was expected the nature of the indictments would be known.

A unique roadway of solid salt, forming a part of the Wenlover highway in Tooele county, Utah, is projected by the Utah State road commission.

MEN FEEL TIRED, TOO.

While much is said about tired women it must be remembered that men also pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired out and miserable, lacks energy and ambition, Foley Kidney Pills are tonic and strengthening. Wm. H. Clark, Springfield, Ohio, writes: "I found no relief from kidney trouble until I discovered Foley Kidney Pills. Now I am in AI shape. They act quickly and surely." F. B. Johnson, A. J.

A little off of Main Street but it pays to walk.

ALBERT C. STEVENS

Candidate for

Prosecuting Attorney

65th Judicial Circuit Rush County

On account of the duties of the office of prosecuting attorney, giving my aid in the filling out of questionnaires, and the fact that I have been sick with influenza for the past three weeks, I have been unable to make a personal canvass in the County.

If my manner of conducting the office has met with your approval and you feel kindly disposed toward me personally, I shall appreciate your support in the coming election. And, anyway, whatever the outcome may be, I shall feel as kindly toward you in the future as I have in the past.

Very truly yours,

ALBERT C. STEVENS.

VICTORY

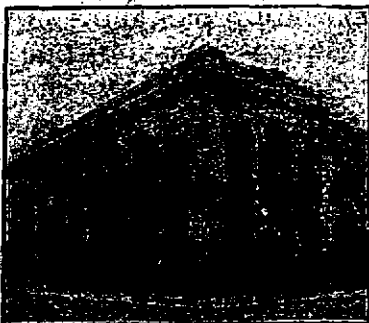

Or Success along any line of action, can only be accomplished by co-operation, labor and thought.

Rush County's several War Activities have always been successful, and will continue to be, for the true spirit of Patriotism is everywhere.

To accomplish all good and be able to contribute to every worthy Cause—We Must SAVE, SAVE, SAVE, all that we can.

Are You Saving all that you can from your income?

Try to Save More, and we will be glad to co-operate with you in every way we can, in our two institutions.
